CORPORATE LIABILITY FOR CORRUPTION OFFENCES: MACC ACT SECTION 17A, ADEQUATE PROCEDURES AND ISO 37001 ANTI-BRIBERY MANAGEMENT SYSTEMS

COURSE INTRODUCTION

Section 17A of the MACC (Amendment) Act 2018 came into effect on 1st June 2020 and introduced corporate liability for corruption offences for the first time in Malaysia. The amendment means that company directors and senior management will now be held personally liable for acts of corruption committed by the company, either by their own personnel or by parties acting on behalf the organisation. Penalties include fines and prison sentences of up to 20 years for those in charge of the business. The prosecution can be conducted where the director or manager did not participate in the action, or even know about it. However, companies which have been proactive in preventing corruption occurring can present the defence of having “adequate procedures” in place, to prove the necessary measures were taken to prevent the incident occurring and therefore those in charge should not be held liable.

COURSE OBJECTIVES

The half-day online training will explain the law amendment and guide participants on how to establish the necessary adequate procedures using the Malaysian Government’s “Guidelines on Adequate Procedures” as the framework. Participants will be equipped with an in-depth understanding of the new legislation, what the adequate procedures require in practice and direction on how to set up the main procedures, including monitoring and enforcement. An overview of ISO 37001:2016 for Anti-Bribery Management Systems (ABMS) will also be provided.

COURSE CONTENTS

 - Top-level commitment

CORPORATE LIABILITY AND ESTABLISHING ADEQUATE PROCEDURES FOR SMALL MEDIUM ENTERPRISES

COURSE INTRODUCTION

The corporate liability amendments to the MACC (Amendment) Act 2018 was enforced on 1 June 2020.

What does this mean? Are you at risk?

From 1 June 2020, directors and top management of companies - of all sizes - will be held personally liable for any acts of corruption committed for the benefit of the business. Penalties include huge fines and jail sentences of up to 20 years for those in charge of the company, even if they had no personal involvement in the incident. The sole defence is that the company had established “Adequate Procedures” prior to the act: an anti-corruption programme as specified by the Government which proves that the company did all that was reasonably possible to prevent the incident from occurring in the first place. The National Centre For Governance, Integrity and Anti-Corruption (GIACC) has issued the Guidelines on Adequate Procedures pursuant to section 17A(5) of the MACC Act.

INTELLECTUAL PROPERTY STRATEGIES FOR THE MODERN-DAY BUSINESS OWNER: START, GROW, EXPAND

COURSE INTRODUCTION

These days, we can't go anywhere without seeing a McDonald's or Starbucks, and while it may be difficult to imagine, they were once start-ups too. But let us start at the very beginning. How did these businesses, selling common goods, even succeed as start-ups, much less grow into the international business operations they are today? Where do Intellectual Property ("IP") rights come into play?

From starting up, we then move on to business growth and expansion. Nowadays, online marketplaces are ideal for brand owners to do business in a cost-effective way. In 2019, even before COVID-19 hit, the internet economy in Southeast Asia hit the US\$100 billion mark in gross merchandise value, a nearly 40% increase compared to 2018 (Source: e-Conomy SEA 2019 report by Google, Temasek and Bain & Company). Franchising is another way to maximise business potential. With minimum capital outlay required to help business owners build a stronger brand value, this course will share why franchising may be the best business model moving forward.

COURSE OBJECTIVES

This course is to create awareness on the importance and relevance of IP and how companies can use their IP rights to grow, expand and give them a competitive advantage in the marketplace.

COURSE CONTENTS

- IP fundamentals for start-ups
- IP rights in e-commerce: What you need to know?
- Franchising: Is this the best business model post-COVID-19 pandemic?

LEARNING OUTCOME

By attending this course, the participants will be able to:

- Protect your own IP rights.
- Create more IP.
- Make more money from your IP.
- Protect brand owners against copycats online.
- Expand franchising without using your own capital.
- Know the differences between licensing and franchising.
- Know types of franchises.
- Gain insights to the advantages and disadvantages of being a franchisor or franchisee.

WHO SHOULD ATTEND

Company director, business owner, sole-proprietors, start-ups to small medium enterprises, universities, R&D institutions and anyone who is keen to learn about IP.

INTEREST SCHEME ACT 2016: DUTIES AND RESPONSIBILITIES OF TRUSTEES

COURSE INTRODUCTION

Creative business mind knows no bound. New asset classes have emerged that are no longer based on outright ownership of property or right. One such asset class is interest. Interest can exist or be creatively structured in many forms with unlimited potential. It can be structured as:

PREFERENCE SHARES. STEPS TO ISSUE, REDEEM AND CONVERT

COURSE INTRODUCTION

A company may raise working capital by the traditional way of issuing ordinary shares. However, the return on such investments may not be attractive enough for certain type of investors who would prefer fixed dividends and return of capital at an earlier period. Unlike ordinary shares, preference shares give the investors greater upside potential and a level of downside protection in return for their investments. The Companies (Amendment) Act 2019 (“the Act”) has introduced a new redemption method for preference shares i.e. redemption out of capital of the company which enables a company to redeem the preference shares even though there is insufficient profit. This proves advantageous as the company can still commit to the return of capital without the need to undertake a capital reduction exercise to return the preference capital.

COURSE OBJECTIVES

This course will guide participants on the regulations surrounding the issuance and redemption or conversion of preference shares and its use as a financial instrument. The different rights attached to the preference shares would be explained with illustration to enable the participants to appreciate the strategic considerations for the issuance of preference shares. This course will review the steps to undertake on issuance of such preference shares. It will provide participants with a better understanding on how to choose the three different manners of redemption as provided in the Act.

COURSE CONTENTS

- Strategic consideration for issuance of preference shares – advantages and disadvantages.
- Types of preference shares – cumulative, redeemable, participative and convertible.

SELLING IDEAS. INFLUENCING DECISIONS

Strategies to master persuasive selling, and influencing decision making.

COURSE INTRODUCTION

It is hard to imagine a world without ideas, without innovation, and without charismatic presenters who are seemingly in possession of the magic wand of selling ideas. The art of selling a foreign concept to others, while influencing the decision making process. Pitching an idea is akin to providing a new solution, and that its reception largely depends upon one's ability to present a coherent argument. It's all about improving the odds, while understanding the risks that may ensue. Communicating the right messages and pressing the right buying buttons are some essential skills leaders should learn. As such, leaders need to be confident, convincing, persuasive, and influential in hooking the other party's interests. The ability to take on an idea and turn it into something that can persuade even the most hesitant client, investor, or stakeholder is certainly not for the faint-hearted.

COURSE OBJECTIVES

Designed with the Company Secretary ecosystem in mind, this course aims to enhance self-confidence and persuasiveness of presenters and influencers in the decision making process. Ability to communicate convincing messages, deliver facts and figures to the tee, and present coherent arguments. Yet, remain professional, composed, and level headed.

COURSE CONTENTS

Day 1

- **Monetising ideas across the board:** Characteristics and behaviour of idea buyers. Buying appetites and decision making styles.
- **Principles of communication:** Listen more, talk less, respectfully. Observe verbal, non-verbal neuro-linguistics.
- **Creating favourable atmospheres:** Avoid oversell or overcomplicate matters. Leverage on credibility and previous successes.
- **Take interest to understand:** Know what the other party wants to hear-see-feel. Understand what you are asking for and why.

Day 2

- **Deep dive into their minds:** Focus on framing your story. Salt the pain to gain.
- **Handling objections and rejections:** Manage your expectations, and that of others. Handling nerves and possible difficult questions.
- **Communicate to connect:** No one wants to be sold or tricked into buying ideas. People want to exercise choices, make decisions.
- **Service and follow-through:** The beginnings of a long-term relationship. Discover avenues of business probabilities.

LEARNING OUTCOME

By attending this course, the participants will be able to:

- Deploy confident, convincing, persuasive, and influential communication strategies to win over the other party.
- Develop active listening-questioning skills and positive language techniques for engaging conversations.
- Selling is not just about winning but providing for the needs of potential clients, investors, or stakeholders.
- Leadership styles and multi-generational groups present different decision making expectations.
- Walk through creative decision making processes to assist delivery of quality decisions.

TRAINING METHODOLOGY

- Seminar conduct shall focus on impact, highly-participative, experiential learning with whole-mind, whole-body, whole-person experience.
- Speed and enhanced learning promoted through relevant games, exercises, sharing, case studies and simulations.
- Non-theoretical lectures interwoven into sessions give emphasis to energise, demechanise and rehumanise whole learning process while seeking to reform limiting beliefs and past conditioning.
