

# CYBER SECURITY AWARENESS FOR USERS

## – ARE YOU READY?

### COURSE INTRODUCTION

With all the news stories about hackers, botnets, and breaches involving personal information, it's easy for the security message to sound over-used and tired. It's easy for people to say, "It won't happen here." Studies and surveys repeatedly show that: the human factor (what employees do or don't do) is the biggest threat to information systems and assets. People, just like computers, store, process and transfer highly valuable information. Yet people remain highly insecure, since so little has been done to educate them. As a result, cyber attackers are actively targeting the human element. Until you address the human issue, technology alone cannot secure your organization. Humans are the weakest link in the IT Security Chain clubbed with Technology and Process Vulnerabilities are making it worse.

### COURSE OBJECTIVES

- Introduce the basics of cyber security and attack lifecycle with live demos on latest attacks.
- Learn how hackers collect your data from internet and how they use it against you and your company.
- Learn e-mail and messaging application security and attacks.
- Understand the Wi-Fi attacks and mobile device attacks.
- Learn tips and tricks to be safe online and defend your smart devices from attacks.

### COURSE CONTENTS

- Introduction: Anatomy of cyber attack.
- Latest cyber attacks with live demos:
  - Business e-mail compromise.
  - Ransomware.
  - Mobile device attacks.
  - Web/online application attacks.
  - Social media attacks.
  - E-mail based attacks with attachments and links.
- Tips & tricks for cyber safety.
- How to handle a cyber attack.

### LEARNING OUTCOME

By attending this programme, the participants will be able to:

- Understand the basics of cyber security.
- Understand all the latest cyber attacks with 100% live demos.
- Able to follow tips and tricks towards cyber safety.

### WHO SHOULD ATTEND

Company directors, company secretaries, company secretarial assistants, lawyers, accountants, corporate consultants and anyone who wants to learn about cyber safety. Note : No IT Knowledge Required – open for all who use computers/smart devices
