## ABOUT THE CONFERENCE

**RUNNING IN ITS 13<sup>TH</sup> YEAR SINCE 2011, THE SSM NATIONAL CONFERENCE (SSMNC) HAS MADE ITS MARK AS A SIGNATURE REGULATORY EDUCATION AND NETWORKING PLATFORM FOR CORPORATE PROFESSIONALS TO STAY RELEVANT IN THE EVER CHANGING BUSINESS ENVIRONMENT.**

The theme for SSMNC2024 is **“Enhancing Corporate Transparency. Building Resilience”**.

The Companies (Amendment) Act 2024 came into force on 1 April 2024 except for four sections. Section 4, 14, 26 and 28 of the Amendment Act will come into force later. Attend SSMNC2024 to get first hand understanding on the amendments and implementation. Be prepared to learn how the improvements in beneficial ownership reporting is crucial for transition into a new era of corporate transparency. Changes are also made to strengthen the corporate rehabilitation framework to support companies facing financial difficulties and in turn supporting economic recovery and competitiveness, particularly in the post-Covid-19 landscape.

Companies are bracing regulatory changes, the push for transparency, economy growth prospects, critical climate change, rising social-political tensions, tight financing

conditions, disruptive impact of artificial intelligence (AI) and cyber warfare. These challenges have compelled companies to revisit their governance policies. A well-developed corporate governance framework plays a significant role in improving business transparency and resilience, which are increasingly important in an interconnected and constantly evolving world. A resilient organisation has the capacity to respond, adapt while recovering quickly and prosper from unexpected events.

When a company is transparent about its operations, financial performances and decision-making processes, it instils credibility with investors, employees, customers and public. A transparent business is more likely to have clear strategic vision, ability to build trust, navigate in the uncertain seas, and solidifies the corporation’s resilience and adaptability.

## OBJECTIVES

This Conference aims to provide a platform for board members and corporate professionals to enhance their knowledge on how they can bolster resilience and

enhance corporate transparency by addressing the challenges and seizing the opportunities facing the business world today.
